

IMPROVE RELIABILITY, SAFETY AND PRODUCTIVITY

Operator Rounds

- Reduce maintenance costs with early detection of equipment failures
- Supports continuous improvement programs
- Improve production efficiency and identify incident avoidance by capturing key operational data

Maximise Wrench Time

- Increase labor productivity while reducing rework and backlog
- Reduce maintenance and inventory carrying costs
- Optimise MRO work order planning and execution

HSSE Compliance

- Timely scheduling and execution of Federal, State, and Local regulatory inspections Heightened awareness to precursors
- that could lead to HSSE incidents Highly accessible data improves day-to-day compliance tracking and
- regulatory reporting requirements

Lockout/Tagout Prevent unexpected energisation,

development, documentation and enforcement of LOTO Control

 Prevent injury to employees Mobile framework supports the

and Release Procedures

start-up, or release of stored energy

BYOD

- Enhances productivity by allowing workers to use a device fit for purpose
- Increased worker satisfaction through use of preferred up-to-date devices
- Lower total cost of ownership through increased device options that range from consumer-grade up to Zone 1/2 Haz Loc rated devices

Efficiency

Capture and transform

- Easily integrate this data to 3rd party systems Clearer visibility into the state of the business
- enabling well informed intelligent decisions

Digitise, capture, and share expert

Knowledge Transfer

- knowledge to help guide employee development Ensure business continuity and minimise
- knowledge loss due to attrition Easily share knowledge across the enterprise

Task Management ▲ Enable efficient and effective

- execution of mobile workforce tasks ▲ Improve field worker knowledge and
- awareness to their environment
- Realise increases in plant safety, availability and reliability

Facilities consistent use and continuous improvement of

Procedure Enforcement

- best practices Ensure predictable and safe work practices by reducing human error
- Enhance situational awareness and effective decision making in real time

Improves accuracy and efficiency

- of task execution Provides positive asset identification for regulatory compliance

Availability

Over 30

of the top 100 chemical companies

PROVEN TECHNOLOGY AND INDUSTRY EXPERTISE

Costs

HIGH PERFORMANCE, GREAT SAVINGS Real customer savings achieved from implementing mobile operator rounds with IntelaTrac
